Soto de Viñuelas

Spiritual, Moral, Social and Cultural Development Policy

With regard to personal development, King's College, Soto de Viñuelas seeks to fully prepare our young people for a happy and successful adult life by encouraging traditional Christian values and by fostering self-assurance, mutual respect and a sense of belonging.

Introduction

The School Mission Statement positively asserts that King's College, Soto de Viñuelas purpose is "to sustain and develop an educational environment in which all pupils are able to fulfil their maximum potential, both as individuals and as members of a community". This means encouraging and challenging pupils of all academic abilities to develop to their fullest, whilst supporting and enabling each pupil to value themselves, to respect those around them and their environment.

It is the task of the School to ensure that an adequate foundation of experience and knowledge, with opportunities for discussion, reflection and evaluation, is provided so that pupils can be given maximum scope to develop their spiritual, moral, social and cultural dimensions.

This policy works in conjunction with other policies and procedures such as Anti Bullying, Behaviour, Rewards and Sanctions, Teaching and Learning and the Personal, Social and Health Education schemes of work.

Central to King's schools is the belief that the education provided is not only about the gaining of knowledge and the acquiring of essential skills, important though they are, but that it is also about the personal development of each boy and girl, in its fullest sense. The fullest sense, in terms of the 1992 Schools' Act, is one which includes the "spiritual, moral, social and cultural development" of each boy and girl. This includes at King's College the Golden Rules in the Primary Department, and the stated Core Values of dedication, independence, integrity, honesty, kindness, initiative, tolerance and open-mindedness in the Secondary Department.

The Golden Rules are designed to create an atmosphere in the school whereby these rules are at the heart of the pupils' thoughts and decisions in all aspects of their relationships, practices and attitudes within school life. We use them to underpin the culture of the School to ensure that the expectation is for high standards of respect, responsibility and self-discipline.

Definition

Within the Primary School at King's College, Soto de Viñuelas the promotion of pupils' spiritual, moral, social and cultural education is considered to be 'a whole school issue'.

Spiritual, Moral, Social and Cultural Development is promoted not only through all the subjects of the curriculum but also through the ethos of the school and through the development of positive attitudes and values and planned time for reflection.

Principles

Spiritual, Moral, Social and Cultural Development is crucial for individual pupils and it is crucial for society as a whole. We believe it is the heart of what education is all about helping pupils grow and develop as people. Spiritual, Moral, Social and Cultural Development is cross curricular and promotes the aims and principles of the policies for PSHCE, RE, Safeguarding, Race Equality, Disability and Equal Opportunities. These policies all underpin the Curriculum model as putting the child at the centre of all we do. It is an expectation in the Primary School that all staff, in all subjects, can and should make a contribution to the Spiritual, Moral, Social and Cultural Development of pupils through the taught curriculum and through the use of appropriate teaching and learning strategies e.g. discussion, reflection, pupil participation, circle time, assemblies etc. The importance of relationships between all school staff, parents and the School Board is crucial. These relationships will be characterised by mutual respect, by positive attitudes, by the willingness to listen and be listened to and by the valuing of all pupils.

Spiritual Development

This relates to the quest for individual identity and the search for meaning and purpose in our existence. It leads towards the understanding of self and others. It has to do with feelings, emotions, attitudes and beliefs. It is not linked solely to a particular doctrine or faith and spiritual development is therefore accessible to everyone.

Aims for Spiritual Development

- The ability to listen and be still
- The ability to reflect
- The ability to sense wonder and mystery in the world
- The ability to sense the special nature of human relationships

Moral Development

Pupils are encouraged to understand the need for a common code and to follow it from conviction rather than because of sanctions or consequences. We use the Golden Rules as the basis of our common code. At King's College Primary School we work towards an understanding of what is right and wrong. From this basis pupils may develop the ability to make judgements and to become increasingly responsible for their own actions or and behaviour.

Aims for Moral Development
